

#### Positive voltage regulators

Datasheet - production data

#### **Features**

- Output current up to 100 mA
- Output voltages of 3.3; 5; 6; 8; 9; 10; 12; 15;
   18; 24 V thermal overload protection
- Short-circuit protection
- No external components are required
- Available in either ± 4% (A) or ± 8% (C) selection

#### **Description**

The L78L series of three-terminal positive regulators employ internal current limiting and thermal shutdown, making them essentially indestructible. If adequate heat-sink is provided, they can deliver up to 100 mA output current. They are intended as fixed voltage regulators in a wide range of applications including local or oncard regulation for elimination of noise and distribution problems associated with single-point regulation. In addition, they can be used with power pass elements to make high-current voltage regulators. The L78L series used as Zener diode/resistor combination replacement, offers e improvement along with lower quiescent current and lower noise.

#### Notes:

<sup>&</sup>lt;sup>(1)</sup>Our SO-8 package used for voltage regulators is modified internally to have pins 2, 3, 6 and 7 electrically communed to the die attach flag. This particular frame decreases the total thermal resistance of the package and increases its ability to dissipate power when an appropriate area of copper on the printed circuit board is available for heat-sinking. The external dimensions are the same as for the standard SO-8.

<sup>(1)</sup>Considering 6 cm<sup>2</sup> of copper Board heat-sink.

#### 4 Electrical characteristics

Refer to the test circuits,  $T_J$  = 0 to 125 °C,  $V_I$  = 8.3 V,  $I_O$  = 40 mA,  $C_I$  = 0.33  $\mu F$ ,  $C_O$  = 0.1  $\mu F$  unless otherwise specified.

Revision history L78L

## 9 Revision history

Table 31: Document revision history

| Date        | Revision | Changes   |
|-------------|----------|---|
| 14-Mar-2005 | 9        | Add tape and reel for TO-92.  |
| 15-Mar-2005 | 10       | Add note on Table 3.  |
| 23-Dec-2005 | 11       | Mistake on ordering Table in header.  |
| 12-Sep-2006 | 12       | Order codes updated.  |
| 07-Jun-2007 | 13       | Order codes updated.  |
| 18-Sep-2007 | 14       | Added Table 1 in cover page.  |
| 15-Jul-2008 | 15       | Modified: Table 1 and Table 28: Order codes.  |
| 18-Aug-2008 | 16       | Modified Figure 12 on page 26.  |
| 03-Apr-2009 | 17       | Added: RthJA value for SOT-89 Table 2 on page 5.  |
| 08-Feb-2011 | 18       | Added note Table 26 on page 39  |
| 21-Feb-2012 | 19       | Modified: SOT-89 Figure 2 on page 4.  |
| 14-Aug-2012 | 20       | Updated TOP value for L78L00AC in Table 1 on page 5. Minor text changes.  |
| 07-Sep-2012 | 21       | Added: Table 29: Marking information.   |
| 14-Apr-2014 | 22       | Part numbers L78LxxAB, L78LxxAC, L78LxxC changed to L78L. Removed Table1: Device summary. Updated features and description in cover page, Table 28: Order codes, Table 29: Marking information and Section 7: Package information. Added Section: Packing mechanical data. Minor text changes.  |
| 06-Oct-2014 | 23       | Updated Table 28: Order codes and Table 29: Marking information. Minor text changes.  |
| 10-Feb-2015 | 24       | Updated Table 29: Marking information. Minor text changes.  |
| 10-Feb-2016 | 25       | Updated Table 29: Marking information and Section 7.7: SOT-89 packing information.  Minor text changes.   |
| 21-Jun-2016 | 26       | Changed test condition values for the parameter "Line regulation" and the typical value for the parameter "Dropout voltage" in: Table 3: "Electrical characteristics of L78L33C", Table 4: "Electrical characteristics of L78L05C", Table 12: "Electrical characteristics of L78L33AB and L78L33AC" and Table 13: "Electrical characteristics of L78L05AB and L78L05AC".  Minor text changes. |

#### **IMPORTANT NOTICE - PLEASE READ CAREFULLY**

STMicroelectronics NV and its subsidiaries ("ST") reserve the right to make changes, corrections, enhancements, modifications, and improvements to ST products and/or to this document at any time without notice. Purchasers should obtain the latest relevant information on ST products before placing orders. ST products are sold pursuant to ST's terms and conditions of sale in place at the time of order acknowledgement.

Purchasers are solely responsible for the choice, selection, and use of ST products and ST assumes no liability for application assistance or the design of Purchasers' products.

No license, express or implied, to any intellectual property right is granted by ST herein.

Resale of ST products with provisions different from the information set forth herein shall void any warranty granted by ST for such product.

ST and the ST logo are trademarks of ST. All other product or service names are the property of their respective owners.

Information in this document supersedes and replaces information previously supplied in any prior versions of this document.
